HVAC SOLUTIONS FOR ALL APPLICATIONS

Doesn't matter what kind of HVAC system you have, we take innovative approaches to protect your assets. We are here to provide the best solutions to our clients by anticipating their needs with our factory trained technicians which ensures that we remain our client's first choice.

**CREATING OPTIMAL
SOLUTION
WITH
UNLIMITED FLEXIBILITY**

Chillers Repairs & Maintenance

Chiller performance testing, major overhauling, leakage repairs, tubes descaling, retubing, water treatment & balancing, oil & refrigerant chemical analysis, condenser cleaning & repairs, chiller controls, operation staff training of either electrically operated or absorption type chillers are the part of our expert services.

Compressor Repair & Maintenance

Frick, Carlyle, Copeland, Danfoss, Sabroe whichever type of installed at York, Carrier, Trane or any other HVAC unit we have the right solution for you.

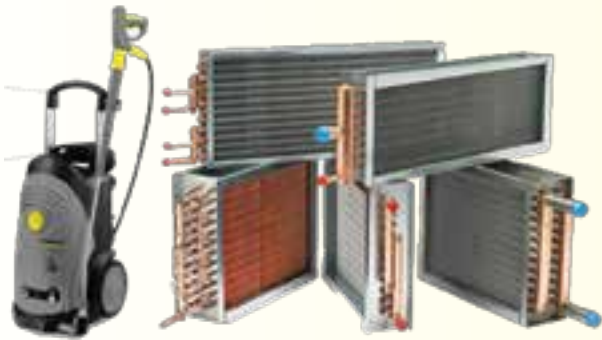

Spare Parts

Eurocon provides Genuine spare parts of YORK, CARRIER, TRANE, GREE & TICA With our years of experience we provide RIGHT PARTS SELECTION for all the Chiller Spares and complete ownership of components we supply.

Air Handling Units Maintenance

AHU cooling coil repair & maintenance, blower and motor service & repair, damper servicing, air distribution balancing or any other services related to air side of HVAC system is the part of our area of expertise.

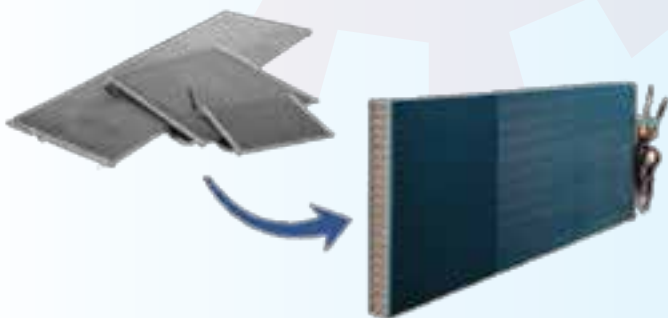

Coil Service & Replacement

Evaporator/Condenser coil is key to it being able to generate and distribute cool air. Eurocon provides services and replacement of coils.

Conversion of Efficiency class from IE1 To IE3:

We evaluate the performances of your systems and take initiatives to improve the operating efficiency up to 90% which saves 100 of kilowatt per hours.

Conversion of MCHX to CU/AL

Copper condensers are clearly the top choice for the condensers. Aluminum coils are difficult to repair and thus needs replacement.
